Welcome

Thank you for deciding to join JP Music Academy.

Welcome to JP Music Academy! Have you or your child always wanted to learn an instrument? Looking for a place where you will be engaged, enjoy learning your instrument and be taught by an experienced musician and teacher?

You have come to the right place.

James Peden (Owner)

The Story

James began learning piano at the age of 8 and continued his lessons until he turned 16. Afterwards, he expanded his musical repertoire by taking up guitar, bass, and singing. In his 20s, James led bands and played keyboard for other artists. By the time he reached his 30s, James had accumulated a wealth of knowledge and experience in music that prompted him to start teaching private music lessons under JP Sounds in 2017 and now rebranded to JP Music Academy.

Today, with over a hundred students enrolled in its school program and Pakenham Studio, JP Music is thriving. If you share James's passion for music, what kind of journey do you envision for yourself? What are your personal aspirations within this art form? From an early age, James knew that making music was something he wanted to pursue professionally.

The Guitar Ninjas and Keyboard Superstars programs are exclusive to JPMA. Each program has 9 levels to complete. Guitar Ninjas progress with coloured guitar straps which represent each level, while Keyboard Superstars have a lanyard that allows the student to collect badges.
